

Everflex® units have become a mainstay in the industry. They're made up of top-quality Bonnell coils that are stress-relieved before they're assembled so they can provide better support.

- Clipped border offers firmer edge support, reducing the feeling of roll-off.
- Available in a variety of heights and configurations for easy customization.

- Provides a durable, long-lasting sleep surface.
- Available in 5.25" 5-turn and 5.75" 5-turn special heights.
- Stress-relieved wire holds its shape and provides a durable, consistent sleep surface.
- Foam-encased option available.

Innersprings sleep up to 28% cooler than foam.*

Unit Coil Counts

	Twin	Twin XL	Full	Full XL	Queen	King	Cal King
252	168	184	252	276	299	368	360
312	216	234	312	338	390	468	459
336	240	260	336	364	416	520	486
364	260	280	364	392	448	560	551
