

Caliber Edge® frames the perimeter of our Bolsa® unit, providing a strong, durable edge, delivering a consistent sleep surface, and reducing that roll-off feeling.

- **Caliber Edge®** – Provides durable support all the way to the edge.
- **Bolsa® Coils** – Provide an even surface that absorbs partner movement and prevents sleepers from rolling together.
- **Pre-Compressed Coils** – Create a firm surface that makes the unit more responsive to body movements.
- **Stress-Relieved Wire** – Holds its shape and provides a durable, consistent sleep surface.
- **Packable and Shippable** – Can be compressed, folded, and rolled.

Pre-compressed coils surround the perimeter

Product Name	Coil Height	Coil Count*	Center ILD	Edge ILD
Caliber Edge®	8"	682	624	592
	6"	660	676	682

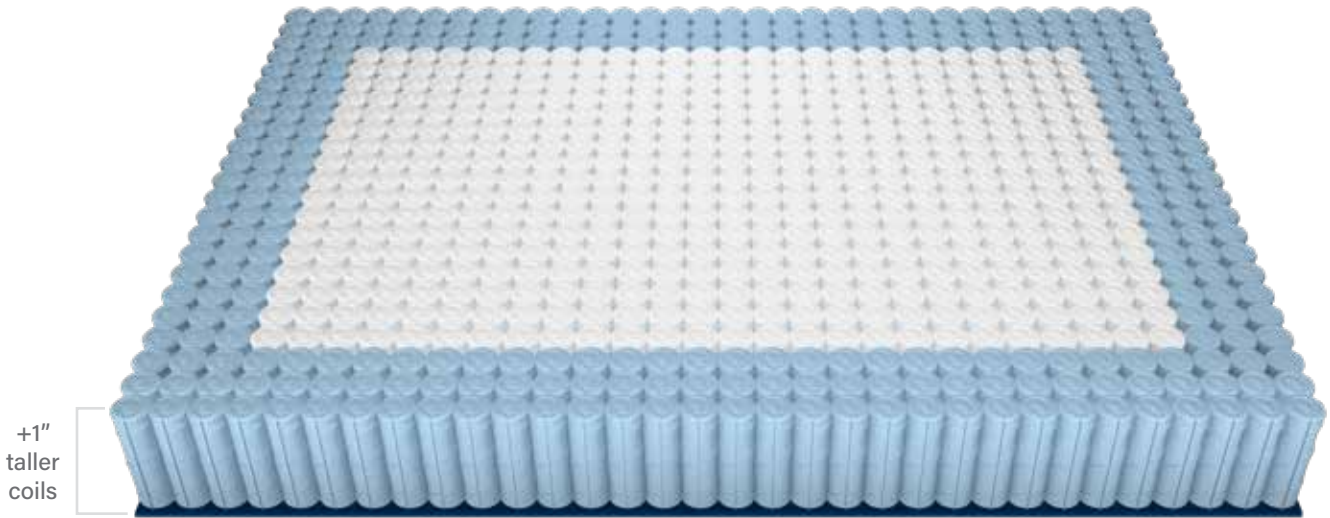

Sizes: Twin, Twin XL, Full, Queen*, King, Cal King

CALIBER EDGE®

Enhanced Profile with Eco-Base™

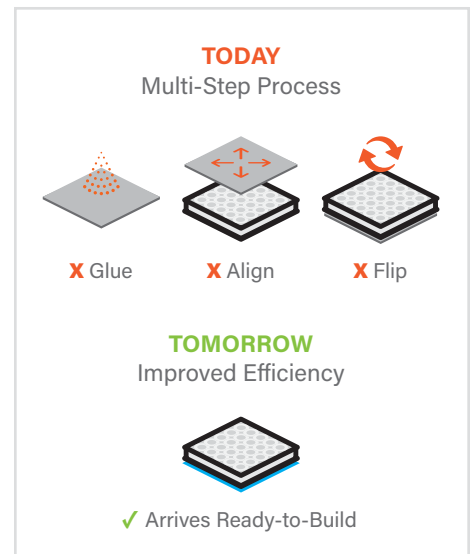

BeddingComponents.com

Developed with a more mindful approach, this new product still frames the perimeter of our Bolsa® coil unit with Caliber Edge®, but integrates a robust fabric scrim that replaces base foam. To maintain mattress profile, coil height is increased (+1"). This unit arrives ready-to-build, which improves throughput, lessens labor constraints, reduces inventory, and yields sustainable benefits.

- **Eco-Base™** – 100% polyester non-woven fibers enhanced with a starch binder; weighs less than 1 lb and less than 1 mm thick. Improved durability compared to commodity poly base foam
- **Improved Compression Recovery** – compared to commodity poly foam
- **Better Shape Retention** – resulting in less size variation when handling
- **Improved Edge Performance**
- **Promotes Sustainability** – 80% less petro-chemical contents per unit, which means every 200 queen units conserves 80 gallons*
- **Packable and Shippable** – can be compressed, folded, and rolled

Product Name	Coil Height	Coil Count*	Center ILD	Edge ILD
Caliber Edge® Enhanced Profile with Eco-Base™	7"	660	624	710
	9"	736	653	705

Sizes: Twin, Twin XL, Full, Queen*, King, Cal King

*Comparing 660 CPE 6" with base foam to 660 CPE 7" with Eco-Base™ and 682 CPE 8" with base foam to 736 CPE 9" with Eco-Base™ (base foam comparison is 1.0" 1.8 lb commodity poly base foam in 60" x 80" size)
