

# BOLSA® EVO™ CENTER ZONED

Pre-Foam-Encased Rail with Eco-Base®

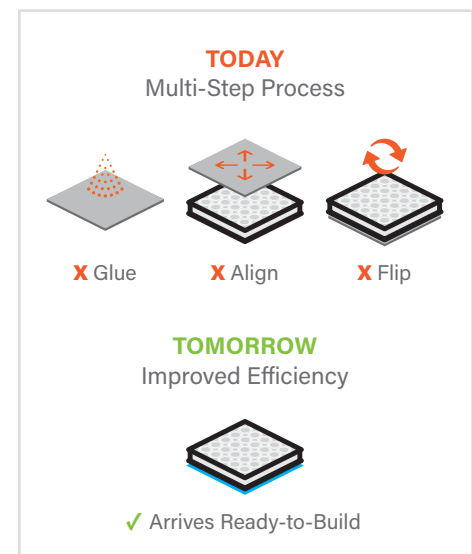

Leggett & Platt®

BeddingComponents.com

Bolsa® EVO™ Center Zoned utilizes a 3" rail with 1.8-lb. foam to provide an even surface that absorbs partner movement and prevents sleepers from rolling together.

- **Pre-Foam Encased** – Reduces labor and inventory for customer creating greater production efficiencies.
- **Eco-Base®** – 100% polyester non-woven fiber.
  - Improved durability and compression recovery compared to commodity poly base foam.
  - Promotes Sustainability – 80% less petro-chemical contents per unit, which conserves 80 gallons for every 200 Queen units\*
  - Better shape retention – less size variation when handling.
- **Center Third Zone** – Provides firmer middle third for additional hip and lumbar support.
- **Bolsa® EVO™ Coils** – Provide an even surface that absorbs partner movement and prevents sleepers from rolling together.
- **Next-Generation Innersprings** – ComfortCore® EVO™ (Elevated Value Objective) delivers a higher value proposition through advanced engineering and mindful use of wire.
- **Pre-Compressed Coils** – Create a firm surface that makes the unit more responsive to body movements.
- **Stress-Relieved Wire** – Holds its shape and provides a durable, consistent sleep surface.
- **Packable and Shippable** – Can be compressed, folded, and rolled for easier handling in a more manageable size.
