

# Perimeter Edge® EVO™

with Eco-Base®

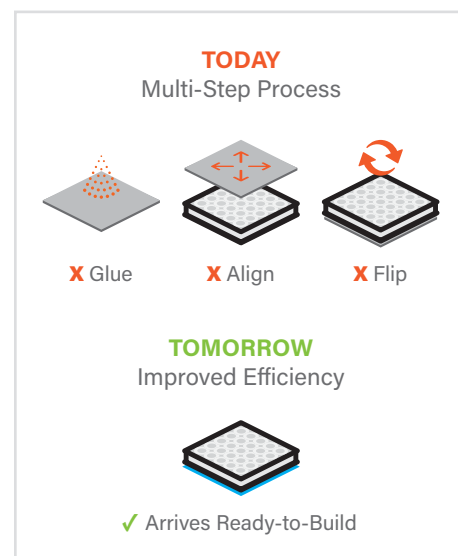

BeddingComponents.com

Developed with a mindful approach to resources, this new product frames the perimeter of our Bolsa® coil unit with Perimeter Edge® EVO™, but with an integrated pre-attached base layer that replaces base foam. This unit arrives ready-to-build, which improves throughput, lessens labor constraints, reduces inventory, and yields sustainable benefits.

- **Eco-Base®** – 100% polyester non-woven fiber.
  - Improved durability and compression recovery compared to commodity poly base foam.
  - Promotes Sustainability – 80% less petro-chemical contents per unit, which conserves 80 gallons for every 200 Queen units\*
  - Better shape retention – less size variation when handling.
- **Perimeter Edge® EVO™ Coils** – Provide durable side support.
- **Bolsa® EVO™ Coils** – Provide an even surface that absorbs partner movement and prevents sleepers from rolling together.
- **Next-Generation Innersprings** – ComfortCore® EVO™ (Elevated Value Objective) delivers a higher value proposition through advanced engineering and mindful use of wire.
- **Pre-Compressed Coils** – Create a firm surface that makes the unit more responsive to body movements.
- **Stress-Relieved Wire** – Holds its shape and provides a durable, consistent sleep surface.
- **Packable and Shippable** – Can be compressed, folded, and rolled for easier handling in a more manageable size.

Product Name	Coil Height	Coil Count*
Perimeter Edge® EVO™ with Eco-Base®	6"	630

Sizes: Twin, Twin XL, Full, Queen\*, King, Cal King
