

Bolsa® fabric-encased coils provide an even surface that absorbs partner movement and prevents sleepers from rolling together.

- We produce our own wire, which ensures quality-controlled steel in every spring.
- Pre-compressed coils create a firm surface that makes the unit more responsive to body movements.

ComfortCore® coils feature heat-treated, stress-relieved wire that holds its shape and provides a durable, consistent sleep surface. The wire flexes and conforms to the individual contours of the body for superior comfort and reduced partner disturbance.

Innersprings sleep up to 28% cooler than foam.*

Unit Coil Counts

	Twin	Twin XL	Full	Full XL	Queen	King	Cal King
475	325	N/A	475	N/A	567	729	728
