

QUANTUM® EDGE CENTER ZONED

Leggett & Platt®

BeddingComponents.com

Framing our Bolsa® fabric-encased coil unit, this reinforced edge features Quantum® coil side rails with Caliber™ steel springs at the head, foot, and center zone. It delivers a consistent sleep surface and reduces that roll-off feeling.

- **Center Third Zone** – Provides firmer middle third for additional hip and lumbar support.
- **Quantum® Edge Coils** – A reinforced perimeter, made up of narrow-diameter Quantum® coils, that frames the sides, delivers a consistent sleep surface, and reduces that roll-off feeling.
- **Bolsa® Coils** – Provide an even surface that absorbs partner movement and prevents sleepers from rolling together.
- **Pre-Compressed Coils** – Create a firm surface that makes the unit more responsive to body movements.
- **Stress-Relieved Wire** – Holds its shape and provides a durable, consistent sleep surface.
- **Packable and Shippable** – Can be compressed, folded, and rolled.

Quantum® Edge coil
